## CAREER OBJECTIVE

Motivated Computer Science graduate and Full Stack Developer (Fresher) eager to join a dynamic organization, contribute to real-world projects, and grow as a professional while delivering high-quality software solutions.

## PROJECTS

### Major Project -1

E-Commerce Website

- Developed a full-stack e-commerce platform with user authentication (Login/Signup) and strong form validations ensuring secure and smooth access.
- Implemented Add-to-Cart and Product Management features with state management using Redux, enhancing performance and scalability.
- Built a responsive and user-friendly interface with React & Bootstrap, integrated with Django backend APIs for seamless data handling.
